

The Boston Opportunity Agenda

Goal:

Post-Secondary Attainment

Priority Initiatives:

A new network of Boston's Adult Basic Education providers that helps learners identify and achieve pathways to higher education and career certification

Progress We Will See:

- **Strengthened supports for adult learners**—A network of Adult Basic Education providers (including those offering English for Speakers of Other Languages), are working together in a comprehensive system that delivers coordinated case management and other supports
- **A smoother transition to college**—Graduates of the Boston Public Schools and Adult Basic Education programs, including English for Speakers of Other Languages and GED programs, are benefiting from strong relationships with local colleges and universities to ease the transition to higher education

Bottom Line:

More adults and parents with the post-secondary credentials necessary for family-sustaining work
